

## Plastic Bottles

 recycle

## Fleece Jacket

 recycle

## Plastic

Plastic is made from oil.

25 two litre plastic bottles can be recycled to make one fleece jacket!

 recycle

## Clear Glass Bottle

 recycle

## Clear Glass Jar

 recycle

## Glass

Glass is made from sand, limestone and soda ash.

Making glass bottles and jars from recycled ones saves energy.

The energy saved by recycling one bottle could power a colour TV for 15 minutes.

 recycle

## Paper

 recycle

## Toilet Paper

 recycle

## Paper

Paper is made from trees.

If you recycle your old newspapers they could come back as new newspapers in just 7 days.

 recycle

## Cardboard

♻️ recycle

## Egg Carton

♻️ recycle

## Cardboard

Cardboard is made from trees.

Cardboard can be recycled to make new boxes, or even furniture, containers or dog kennels!

♻️ recycle

## Steel Cans

♻️ recycle

## Paper Clips

♻️ recycle

## Steel

Steel cans are made from a metal called iron.

Steel packaging can be recycled over and over again without losing its quality.

♻️ recycle

## Aluminium Cans

♻️ recycle

## Aluminium Cans

♻️ recycle

## Aluminium

Aluminium is made from a metal ore called bauxite.

Making an aluminium can from recycled materials uses only 5% of the energy needed to make a can from raw materials and produces only 5% of the CO2 emissions.

♻️ recycle

## Old Clothes

♻️ recycle

## Cushion Filling

♻️ recycle

## Textiles

Textiles that can't be reused can be shredded and made into fillings for cushions, toys etc.

♻️ recycle

## Garden Waste

♻️ recycle

## Compost

♻️ recycle

## Garden Waste

Composting is nature's way of recycling garden waste, including grass cuttings, twigs and leaves. The garden waste breaks down on a compost heap to make a rich, crumbly soil which can be used to help plants grow.

♻️ recycle

## Plastic Milk Bottle

♻️ recycle

## Garden Furniture

♻️ recycle

## Plastic

Plastic is made from oil. Milk bottles are made from a type of plastic called High Density Polyethylene (HDPE). Plastic milk bottles can be recycled to make new garden furniture, compost bins or even new milk bottles.

♻️ recycle

## Food Waste

 recycle

## Liquid Plant Food

 recycle

## Food Waste

Worm composting is a fantastic and natural way of recycling food waste including vegetable scraps, banana skins and tea bags. The worms break down the food waste and produce a liquid plant food.

 recycle

## Car Tyres

 recycle

## Mouse Mats

 recycle

## Rubber

Tyres are made from rubber.

Old tyres can be recycled to make mouse mats, playground surfaces or road asphalt.
