Answer Key: How Much Do You Know About Waste?

1. False. (When plastic bags have been washed and dried thoroughly, they can be reused safely again and again.)
2. False. (The use of personal computers has actually increased the amount of paper that people consume.)
3. c. Your own reusable bag from home. (People can save the trees used to make paper bags and the energy use to make plastic ones, by taking their own shopping bags to the store.)
4. c. Both a and b. (Reusing paper reduces the need to buy more paper.)
5. a. True. (Used tires are often shredded and mixed with asphalt to make roads that last longer and need less repair.)
6. b. Steel. (People called steel cans "tin cans" for a long time, but they are actually made of steel.)
7. d. All of the above. (Before the twentieth century, most paper was made from cloth rags.)
8. True. (Many types of plastic are recycled into furniture, carpets, clothing, and other items.)
9. d. All of the above.
10. d. All of the above.
